3.ANALYTICAL INSIGHTS – DEMAND AND REVENUE

INSIGHT – 1: Revenue is almost equal across cuisines.

Chinese leads with ₹23.97M and Italian is lowest at ₹23.52M, with Mexican, Indian and Arabian in between.

INSIGHT – 2: No cuisine is premium.

The average paid per order is ₹1,679 to ₹1,716 across the five. Customers spend the same whether they order Arabian, Chinese, Indian, Italian or Mexican.

INSIGHT – 3: Customers buy every cuisine.

Each cuisine is bought by about 7,050 to 7,120 customers , at about 2 orders per customer. Customers move across cuisines instead of sticking to one, so there are no separate cuisine loyalists.

INSIGHT – 4: Profitability and discounts are the same.

Average margin is 14.9% to 15.2% , 27.3% to 28.3% of orders lose money , and estimated profit per order is ₹308 to ₹316. Discounts cost ₹1.19M to ₹1.21M for each cuisine, about 5% of its revenue.

4.ANALYTICAL INSIGHTS-OPERATIONS AND CUSTOMER EXPERIENCE:

INSIGHT-5: Prioritize Revenue by Cuisine

Prioritize marketing and restaurant partnerships for cuisines with strong revenue potential. Increase promotion to build strong customer ordering.

INSIGHT-6: Increase Discount Impact by Cuisine

Focus promotions on cuisines where discounts generate incremental profitable orders.

INSIGHT-7: Repeat Purchase Rate by Cuisine

Introduce loyalty rewards for cuisines that encourage repeat purchases.
