Online Food Delivery Analysis: Data-Driven Business Insights

Customer & Order Analysis

4.Monthly revenue trends

Total revenue is ₹143.1M, an average of ₹11.9M per month. July is the highest month and February the lowest. Revenue follows the number of days in the month. February is lowest mainly because it's shortest. Revenue per day is steady in every month

- Delivered orders: 84100
- Total revenue (millions): 111.78

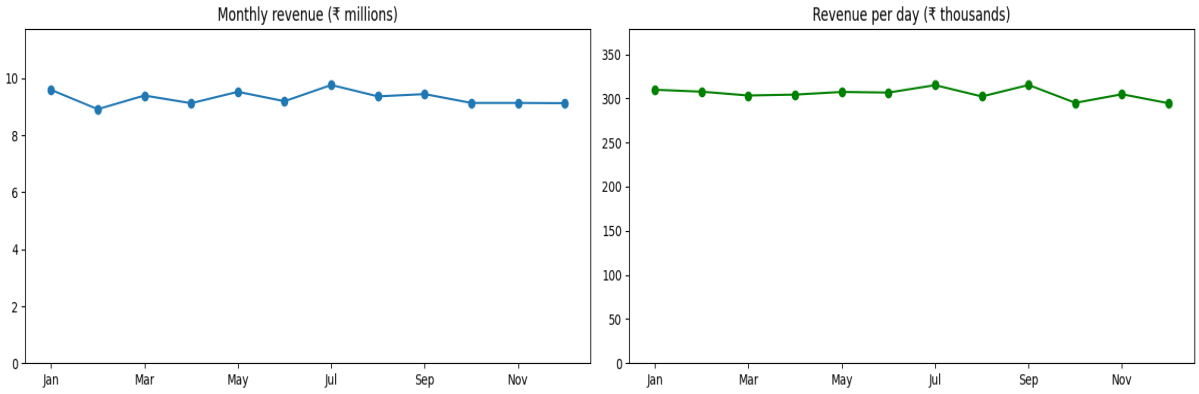

Illustrative sample records :

Month	Revenue_per_month	orders	avg_order_value	revenue_per_day
Jan	9.60	7179	1338.0	309.8
Feb	8.92	6748	1322.0	307.6
Mar	9.40	7138	1317.0	303.3
Apr	9.13	6886	1326.0	304.3
May	9.53	7124	1337.0	307.3
Jun	9.20	6907	1332.0	306.6
Jul	9.77	7244	1348.0	315.0
Aug	9.37	7039	1331.0	302.2
Sep	9.45	6972	1356.0	315.2
Oct	9.14	7000	1306.0	295.0
Nov	9.14	6980	1310.0	304.7
Dec	9.13	6883	1326.0	294.5

2 . VISUALIZATIONS

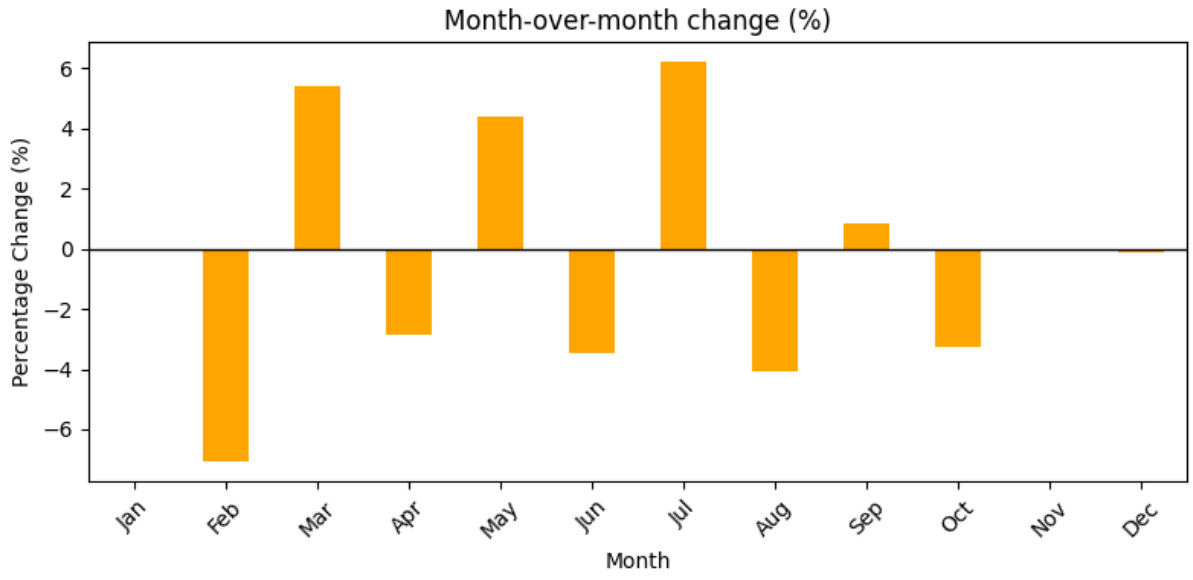

Visualization – 1

The simplest way to show total growth over the year, and a straight, steady line makes the no finding obvious. This charts shows monthly revenue and revenue per day.

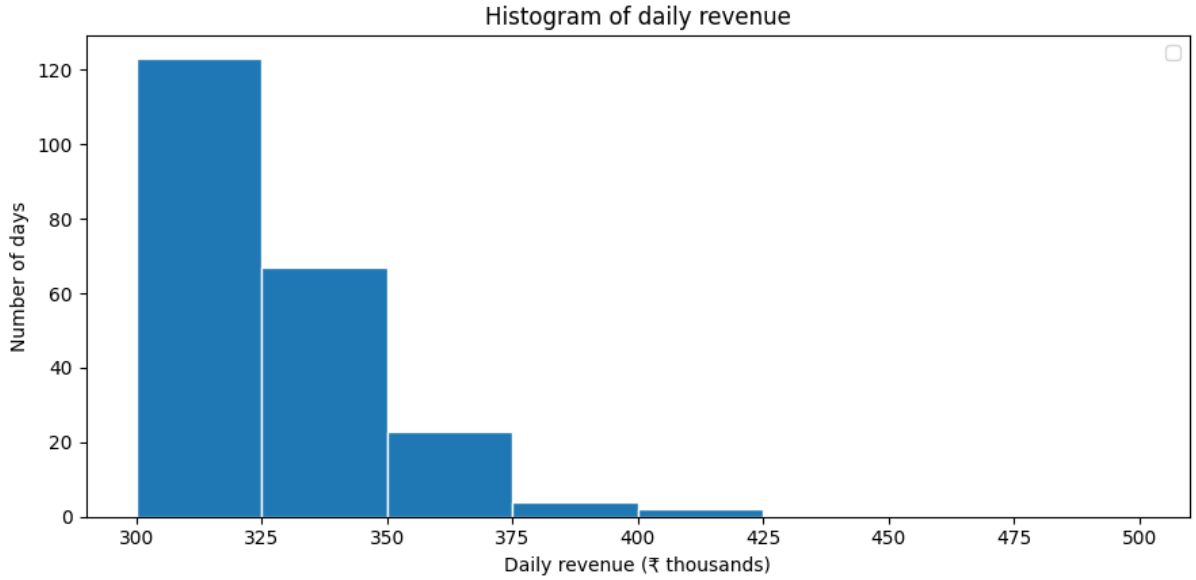

Visualization – 2

This chart shows changes in revenue over month.

Visualization – 3

Below histogram bar chart to mean a histogram of daily revenue, so each bar counts how many of the 365 days fell into a revenue range.

3.ANALYTICAL INSIGHTS – DEMAND AND REVENUE

INSIGHT – 1: Revenue is steady at about ₹11.9M a month.

Total revenue is ₹143.1M, with roughly 7,000 delivered orders each month. Nothing about any single month is out of the ordinary.

INSIGHT – 2: Month length explains much of the ups and downs.

The number of days in a month explains about 50% of its revenue movement . Per day, revenue sits in a tight band of ₹378K to ₹403K. February's dip is mostly because it has fewer days.

INSIGHT – 3: Cancellations are the biggest steady leak.

Cancelled orders represent about ₹25M of lost sales, or ₹2-3M every month. The cancellation rate stays between 14%-15% all year, so it's a constant cost and not a seasonal problem.

4.ANALYTICAL INSIGHTS-OPERATIONS AND CUSTOMER EXPERIENCE:

INSIGHT – 4:Analyzse Month-over-Month Revenue Growth

Identify periods of growth or decline and change the major factors to increase the growth.

INSIGHT – 5: Analyses Seasonal Revenue Patterns

Plan promotional campaigns and delivery capacity around predictable demand fluctuations. This could help to increase monthly revenue.

INSIGHT – 6: Discounts and Promotional Impact

Focus on promotions that generate incremental profitable orders rather than existing demand. Orders value and revenue also increase through this method.
