Online Food Delivery Analysis: Data-Driven Business Insights

Customer & Order Analysis

9.Delivery rating vs delivery time.

Delivery rating is unrelated to delivery time. Delivery that arrives in 30 minutes gets the same ratings as one that takes 4 hours. The average rating is 2.99 out of 5 overall.

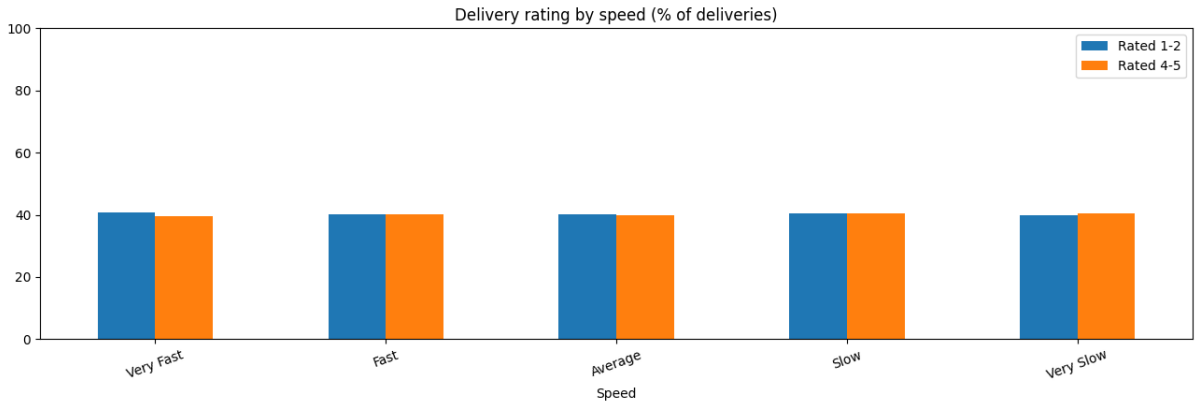

Illustrative sample records :

Speed	deliveries	Avg rating
Very Fast	12024	2.98
Fast	11469	3.00
Average	4152	2.99
Slow	7825	2.99
Very Slow	11731	3.01

2 . VISUALIZATIONS

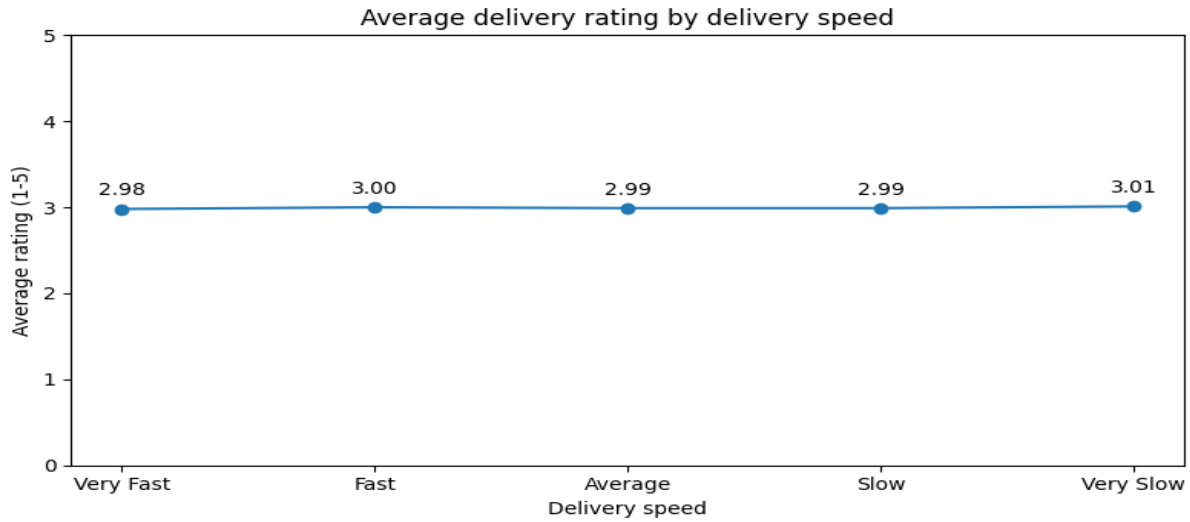

Visualization – 1

Below bar chart shows delivery rating by delivery speed (% of deliveries).

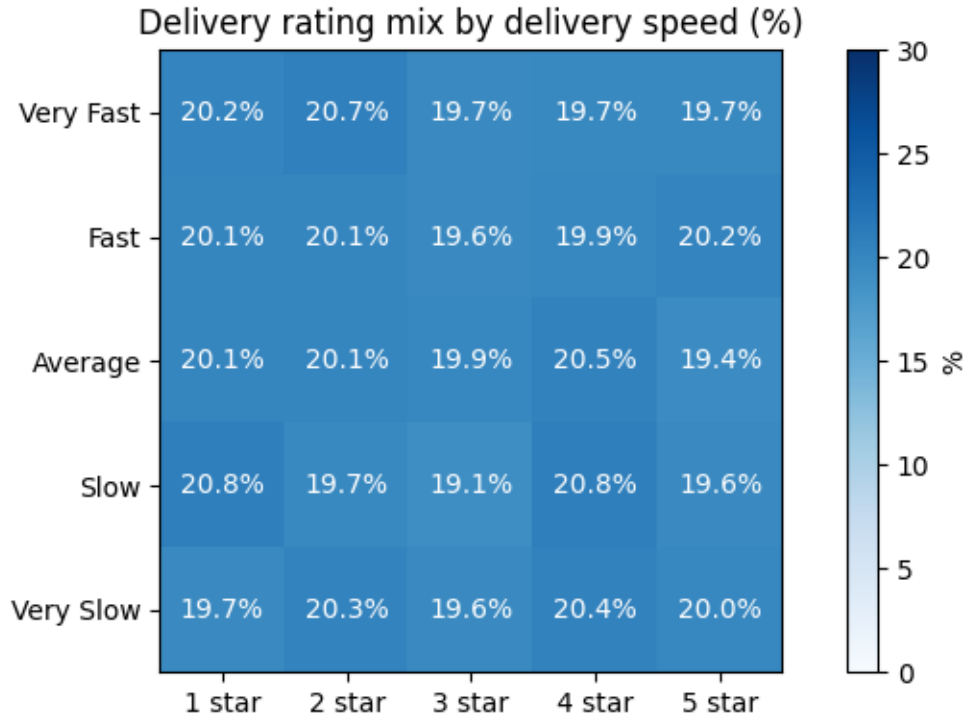

Visualization – 2

This line chart shows the average delivery rating for each delivery speed category, and the line is flat at about 3.0 out of 5.

Visualization – 3

Below heatmap shows each row is a delivery speed category and each column is a rating from 1 to 5 stars.

3.ANALYTICAL INSIGHTS – DEMAND AND REVENUE

INSIGHT – 1: Order value doesn't change with rating.

The average order is ₹2,060 to ₹2,090 at every rating. Unhappy customers aren't spending less per order, and happy ones aren't spending more.

INSIGHT – 2: Revenue is spread across all ratings.

Each star level holds about 20% of order value. About 40% of order value, ₹26.0M, comes from orders rated 1 or 2, which looks like a lot at risk but there's no evidence of revenue lost to poor ratings.

INSIGHT – 3: Speed doesn't explain the rating.

Delivery time and rating have a low correlation value, which is zero in practice. The average delivery time is 127 to 129 minutes for every rating, and the share of deliveries over 150 minutes.

4.ANALYTICAL INSIGHTS-OPERATIONS AND CUSTOMER EXPERIENCE:

INSIGHT-4: Analyse Delivery Time vs. Average Customer Rating

Identify delivery durations associated with lower ratings and set realistic delivery-time targets.

INSIGHT – 5: Reduce Late Deliveries

Reduce avoidable delays and improve customer communication when orders are running late.

INSIGHT-6: Review customer complaints and resolve it

Proactively notify customers about delays and streamline service recovery.
